Don't let the bats get you in your belfry, keep the swallows out of your chimney, rub the rats out of your carpet, muffle the old babes, don't overrun your reservoir with hooch, eat moderately, trust in God and keep your powder dry, rub the rust off the old long to a and learn the words of the "Star Spangled Banner."

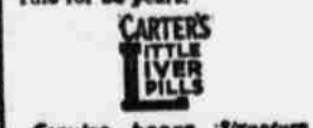

### The Best Habit In The World

is the habit of health. The way to get it is to train your bowels, through the liver, to act naturally, at a fixed time, every day.

Take one pill regularly (more only if necessary) until you succeed. Then you can stop taking them, without trouble or annoyance.

This has been the good-health rule for 50 years.

Colorless faces often show the absence of iron in the blood. **Carter's Iron Pills** will help this condition.

### Influenza or La Grippe

It is quite refreshing three days to read of a clearly defined treatment for Influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. Jeanne Bell of New York City says he is convinced that too much medication is both unnecessary and injurious.

When called to a case of la grippe, the patient is usually seen when the fever is present, as the chill which occasionally subsides in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-kennel tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unexcelled for headache, neuritis and all pains.

## PLANS NEW FEES FOR SURROGATES IN TWO BOROUGHES

But Perlman Bill Wouldn't Permit Them to Get More Than Justices.

(Special from Staff Correspondent of The New York Evening World.)

ALBANY, March 23.—Mr. Perlman, in the Assembly, has a new bill which makes a new schedule for paying the surrogates in New York and Kings County. They are to get a sum equal to 1 per cent. of the first \$100,000, and one-half of 1 per cent. on all additional sums of the average amount of taxes which are received each year, provided that their pay is not to exceed the compensation of a Justice of the Supreme Court in the county where the Surrogate is located. Stenographers for Surrogates are to have an increase in pay from \$1,200 to \$1,500 in New York County.

Annual vacations of two weeks for all of the laborers employed by the City of New York who have been in the employ of the city for a year or more are provided in a bill that has been introduced by Mr. Schimmel in the Assembly. Eight hours are fixed for a day's work for this class and the city is to pay for overtime work and the refusal of an employee to work more than eight hours may not be made the ground for dismissal.

Mr. Mitchell, in the Assembly, has a new bill that strikes at the fraternal insurance situation, about which so much row has been raised during the past two years. His bill prohibits a fraternal company from issuing policies at a rate which will not be sufficient to meet the death obligation as figured by the National Fraternal Congress.

This bill follows the contention of the Insurance Department that some of the companies are issuing policies under which they sell, in effect, a dollar's worth of insurance for eighty cents.

Amateur foot races on Sunday may be run under permits issued by the Police Commissioner if a bill which has been introduced by Mr. Bloch goes through.

Senator Thompson has introduced a bill providing that the assessment map in Nassau County shall be filed in each town on Jan. 1, 1920, instead of Jan. 1, 1918. The assessment roll in the county is required to be completed by June 1 of each year instead of July 1.

Senator Wagner, by request, has presented to the Senate the Assembly bill authorizing the City of New York to acquire and operate its public utilities. Mr. Goldstein introduced the Assembly bill.

Senator Walters seeks by a bill to exclude from the franchise tax of insurance companies taxes on the gross amount of refunded policies and cancelled and reinsured risks to the extent of the payments to other companies for reinsurance.

One of the interesting bills to those who value old names is one by Senator Newton which prohibits the use of a family name as a corporate name unless the name used is the true one of the persons who incorporate the company, or unless the persons who use it are the legitimate successors of the original owners of the name. There are hundreds of instances of such use of old names in New York City.

Every one of the big dances in New

York City will have to get a permit from the Commissioner of Licenses under the terms of a bill by Senator Cottino. He defines a "public dance" as any dance or ball where admission can be had by the payment of a fee or the purchase of a ticket, or where a charge is made for caring for wraps, hats and coats, or any other dance where the public can gain admission with or without the payment of a fee. The Commissioner of Licenses is allowed to collect a fee of \$1 for every dance held in a public hall. While the dance act is aimed at the regular dance halls, it is still wide enough to take in almost any of the big functions where admission is charged.

Senator Burlingame has an act which authorizes the District Attorney of Kings County to appoint a medical assistant, who shall give expert aid in cases where medical jurisprudence is an important factor.

Senator Lockwood fathers a new bill that amends the New York City Rapid Transit Act by permitting the Public Service Commission, with the assent of the Board of Estimate, to employ such persons and purchase such plant, machinery and tools as may be necessary and construct any portion of the rapid transit railways as the commission in its judgment may think proper.

Senator Dunnigan is pushing a new bill which seeks to extend the 40-cent gas rate to the eastern section of the

Bronx. This section is now compelled to pay the \$1 rate, and the Senator wants his constituents to have all the light they can get at the cheaper rate.
